### MARRIAGE IS A UNIQUE RELATIONSHIP DIFFERENT FROM ALL OTHERS

"The debate at the core of the call for 'same sex marriage' is not about equality or about the separation of a religious view of marriage from a civil view of marriage. It is about the very nature of marriage itself and the importance society places on the role of mothers and fathers in bringing up children. With others, the Catholic Church will continue to hold that the differences between a man and woman are not accidental to marriage but fundamental to it and children have a natural right to a mother and a father ... It is therefore deserving of special recognition and promotion by the State."

(from "The Meaning of Marriage")
