### THE MYSTERY OF FAITH

Save us, Saviour of the world,  
for by your Cross and Resurrection  
you have set us free.

**VOLUNTEER APPEAL:** We are looking for more EUCHARIST MINISTERS, READERS, FLOWER ARRANGERS & CLEANERS to add to our 2015 rotas. If interested please call in after Mass or see Fr David.

**LISTENING TO THE WORD OF GOD** is something we do long before we come to Mass. God speaks to us in so many different ways – through the events of life and death, in personal prayer, in the sacraments and through the Scriptures. His speaking to us is never in doubt. We are told of this in the Scriptures and are shown it in the lives of the saints. More in question is our ability to listen to Him and our readiness to respond to what we hear.

Not many of us are good listeners. Hearing comes naturally but not listening. We can hear words, we can hear what is being said but listening involves something more. It requires us to be attentive to the person speaking to us. Listening to the person means making a commitment to be attentive to the person speaking. This is true in our relationship with each other and with God. This attentiveness begins not just when the Scripture is proclaimed. We need to develop it as part of our life – some call it active listening.

Have our churches lost something of that culture of quiet attentiveness to a mysterious presence? Has the chattiness of the street displaced the silence needed for inner attentiveness in our churches? How can we recover this? Could we keep our chattiness, which is also important, to the end of Mass? In quiet times before Mass begins maybe we could read over the readings for that Sunday
